

Lyrics by: cedric infante

Lesson:

CONTEST: Black History
Rap

Wanna hear about a man who wrote some books to
stop unfair rights

Soon he saw the lights about the way they treat
they their people

soon the significance of the party not just any party
it was the commies

They were the tsunami of wars but lets see them
later so we can talk

some more about the Wright its that he gave some
speech for a right

so he went to write the books about a boy with a
trait that he had equal rights like the rest

can you free some rights so they can be more free in
the U.S.A

so in that time the United States had to be a
capitalist which is not with rights on other people

When he went to Chicago he turned down postal
service just to be

a commie, When he joined he learned the
communist party wanted equal rights

Soon he turned on the capitalist because they had
no rights for other races

so he just asked why to go away from the capitalist

Significance

Traits

U.S.A

because he didn't want to have no rights
Soon he wrote a book about a Black Boy to show
you they have to have rights to
When he went to try to write one last book he died
of lung cancer
just stay down don't lay a frown he went to help out
the right in the states
One last thing in the french streets he tried to make
the world have equality
